Claims 25-65 are pending in this application.

DETAILED ACTION

1 Claims 25-65 are allowed.

STATEMENTS OF REASONS FOR ALLOWANCE

2 The following is an examiner's statement of reasons for allowance:

This application is a continuation of the US. application No. 09/319,165 which was abandoned after the rejection was affirmed by the Board of Patent Appeals and Interferences. The rejection as stated in the earlier application as being unpatentable over Yamahatus in view of Andrillon and over Andrillon in view of Tsujino under 35 U.S.C. 103(a) of obviousness, was affirmed in the absence of any evidence to overcome a showing of prima facie obviousness. Applicants now have presented evidence submitted in the Declaration under 37 C.F.R.1.132, filed 5/13/2004 which is sufficient to rebut any case of prima facie obviousness of the claimed combination of ingredients.

The references which are cited in form PTO-892, do not teach, disclose or suggest a hair dyeing composition comprising at least one enzyme chosen from 2-electron oxidoreductases in combination with at least one coupler of 2-methyl-5-N-(β -hydroxyethyl)aminophenol as claimed. Accordingly, the claimed subject matter, as a whole would not have been obvious to one having ordinary skill in the art of hair dyeing formulation.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
